U.S. DEPARTMENT OF ENERGY

Discovering the Solutions to Power and Secure America's Future

DOE Management Principles

1. Our mission is vital and urgent.
2. Science and technology lie at the heart of our mission.
3. We will treat our people as our greatest asset.
4. We will pursue our mission in a manner that is safe, secure, legally and ethically sound, and fiscally responsible.
5. We will manage risk in fulfilling our mission.
6. We will apply validated standards and rigorous peer review.
7. We will succeed only through teamwork and continuous improvement.

"The Department of Energy must discover and deliver the solutions to advance our national priorities."

- Secretary Steven Chu
